

MAUI TELEPHONE COMPANY.

Some interesting particulars of the organization—List of the Officers, etc.

The above company, which was organized about a year ago, inaugurated its central office last Saturday, April 5th, at seven o'clock in the evening. At 7:10 the first message flashed over the wires, Mr. A. F. Hopkins calling up central to tender congratulations on the successful opening of the line, and all through the evening messages constantly being transmitted from every point, and greetings exchanged.

The central office is located in the spacious building formerly occupied by Dr. Bailey at Kahului, the switchboard and instruments occupying the large front room.

The switchboard is of Western Electric Bell Company's latest improved make, with a genuine Bell-Blake transmitter, and all the instruments are of Western Electric Bell Company's make.

The system differs from the one in Honolulu in this respect that there are four or five instruments on the same line, on account of the long distances between the central and a large majority of the subscribers, which would otherwise have caused a great expenditure in the quantity of wire required. The wires are all of copper—conducted by all authorities to be the best and cheapest. There are at present twenty-five lines, with 72 subscribers, taking in the whole lower half of the switchboard, on which, however, the upper panel, or half, can be removed and as many more numbers inserted. Applications are steadily flowing in from new subscribers, so it is safe to predict that the number will soon reach 100—a good showing for Maui, indeed, and probably exceeding the fondest hopes of the originators of the company.

When the Pacific cable is completed, a connection will be made with central, thus completing the communication with all points of importance on Maui and Molokai and with Honolulu and remote Kaula. In the meantime messages can be transmitted to Lahaina on the Pacific Cable Company's land-line through Hon. Jno. Richardson's office in Wailuku.

The company deserves great credit for the enterprise and energy with which the work has been pushed ahead and completed in a comparatively short time, and great praise is due to the manager of the exchange and inspector, Mr. E. B. Carley, formerly of Hamakua Telephone Company, who has proved himself an efficient and experienced operator and thoroughly understands his business in all its branches.

The incorporated stock is \$7,000, which is nearly all subscribed.

Following are the officers of the company: H. P. Baldwin, President; R. D. Walbridge, Vice-President; G. P. Wilder, Treasurer; F. L. Stolz, Secretary, who with Messrs. W. H. Cornwell, H. Morrison, T. W. Everett, Dr. George Herbert, W. A. McKay and C. H. Dickey, compose the Board of Directors.

A BOLD ROBBERY.

The Residence of Mr. John Bowler Entered—Money, Jewelry, Notes, Etc., Carried Off.

Mrs. John Bowler took part in the opera Mikado Tuesday evening, and of course her husband was there to witness the performance. When they returned to their home on King street, near midnight, they found it had been visited by a burglar, everything about the house showing a frightful state of affairs. The burglar entered the house by breaking the glass in the front window. Once inside he had a delightful time, even amusing himself by playing on the piano. This threw the Portuguese and his wife who live in a cottage in rear of the track, as they heard a noise and the piano, but thought that Mr. and Mrs. Bowler had returned home. The hanging lamp in the front room was lit and carried around the place. The keys of the safe were found in the washstand, and the robber opened it and carried off four hundred dollars in gold, some notes, two gold watches, diamond earrings, rings, scarves, etc. A bureau was smashed, and clothing was scattered all over the house. Police Captain Hopkins was telephoned for and went to the house and made an investigation. No clue to the robber as yet has been found.

Dinner to Captain Lyon.

Thursday evening, at the Hawaiian Hotel, Mr. John Corwin, paymaster of the U. S. S. Nipsic, and Mrs. Corwin, gave a dinner in honor of Captain H. W. Lyon, late commander of the Nipsic. There were present in addition to the hosts and their guest, His Majesty the King, H. R. H. Princess Liluokalani, Hon. John O. Dominis, Dr. J. S. and Mrs. McGrew, Miss Kate McGrew, Commander McCutcheon, Hon. Paul Neumann, Miss Eva Neumann, Miss Finckler, Miss Campbell, Mr. James W. Robertson, H. M. Vice Chamberlain, and Mr. Paul B. Isenbarg.

The menu was an excellent one and reflected much credit on Mr. P. Lucas the Hotel steward. The Hawaiian string quartette was in attendance on the veranda and gave vocal and instrumental selections during the dinner.

Rainfall Comparison.

From comparison of the rainfall in Honolulu of the past two months with previous records at the same stations, it appears that more rain has fallen than in any two consecutive months on record. At Dr. McKibbin's residence, Beretania street, the highest two months on record are November and December of 1887, together being 20.71 inches. February and March, 1890, give 23.27 inches. At W. W. Hall's Nuanu avenue, the highest record was for October and November, 1874, 21.15 inches. For February and March, 1890, 24.22 inches. At C. J. Lyons' residence, Punahou, the rainfall of 1890, 21.30 inches, was surpassed by 24.34 inches of November and December of 1887.

The Legislature of 1888 opened May 28th, and the coming session will probably be opened about the same time, though no official announcement has yet been made.

SUPREME COURT.—APRIL TERM.

AGENTS FOR THE DAVIDSON STEAM PUMPS

THE only Steam Pump made that can be run at high piston speed, without shock, and with safety to the machine. Piston rods, stuffing boxes, valve seats, stems and lining of water cylinders are of the best composition metal U. S. Standard. THESE Pumps have been adopted by the United States Government for use on all their Cruisers, this demonstrates their undoubted superiority over all other pumps.

A GOLD Medal was awarded this Pump by the Massachusetts Charitable Mechanic Association, one of, if not the oldest of its kind in the United States—money can not buy a gold medal from this Association,—merit alone secures it, and it was won from a large number of exhibitors of steam pumps.

BROOKLYN, N. Y. January 8th, 1890.

Messrs. RISDON IRON & LOCOMOTIVE WORKS, San Francisco.

Gentlemen:—Replying to yours of the 28th ult., have to say as follows:

DR. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL and ONLY GENUINE.

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Menstrual, &c.

From Sime & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1890. To J. P. Davenport, Esq., 21, Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are sorry to say, are now relegated to the native bazaar, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances of the efficacy of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Sime & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the inventor of Chlorodyne, and that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1884.

Sold in bottles at 1s. 1½d., 2s. 6d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.
